

MAN KILLED BY LAGOON TRAIN

Laborer Walking to Stock Yards in Search of Work Is Hurled to Death.

IS IDENTIFIED BY LETTER

MISSIVE FROM WIFE REVEALS NAME OF VICTIM.

E. Emerson, a laborer, of Shoshone, Colo., was run down and almost instantly killed by a Lagoon train at 4:10 o'clock yesterday afternoon near Beck's Hot Springs.

Emerson was walking north on the Lagoon track and was watching a Short Line train on the track parallel to the one on which he was walking and did not hear the Lagoon train approaching from behind. He was struck by the pilot of the locomotive and hurled against the castle guard at the side of the track. His unconscious form was picked up and he was taken back to Salt Lake on the train. The ambulance from the Latter-day Saints' hospital met the train and the injured man was removed to the hospital. He died shortly after reaching the hospital.

When the man was taken to the hospital a letter was found on him from his wife in Shoshone, Colo. It was addressed to E. Emerson and signed Mrs. Emerson. The contents of the letter indicated that the author of it was the man's wife. After Emerson had died and was taken to O'Donnell's undertaking rooms an effort was made to learn his identity. The persons at the hospital who answered inquiries declared that there was nothing found on him that would lead to the discovery of his identity. It was not until shortly before midnight that the undertakers or anyone else knew that hours before the hospital authorities had found the letter identifying the dead man. In addition to the letter found on him there was also this addressed to "Mr. Hogan, Western Packing company," which indicated that he had just secured a position and was walking north along the track to the stockyards.

"Please give bearer a job. H. K. H. Take train to Bountiful. Fare, 15 cents." The note was written on the reverse side of a business card of the Hatch Brick company. It is supposed that Emerson did not have the 15 cents with which to pay his fare and was walking out to go to work. Engineer B. Matthews said that he did not observe Emerson on the track until the engine was almost upon him. Conductor Orson Armstrong was in charge of the train.

The undertaker wired to Shoshone last evening to Mrs. Emerson and asked what disposition she intended to make of the body.

Trip to Nephi Under Joint Auspices of M. & M. and Agricultural College.

"Booster excursions" of the Manufacturers & Merchants' association for the summer season will begin July 10 with a jaunt to Nephi to see the progress made in that part of the state and to study the wonders of dry farming at the government experimental station near that city. The M. & M. and the Agricultural College of Utah will make the trip jointly.

Other excursions to Utah towns will follow. The train for Nephi will leave Salt Lake at 7 o'clock on the morning of July 10. It is expected that about 700 persons will leave Salt Lake for the outing and that about as many more will be picked up along the line on the way to Nephi.

Luncheon will be served at the experimental farm and there will be speeches by Governor Cutler, Professor John A. Widtsoe, John Henry Smith, former president of the Trans-Mississippi congress, and others. Horace Engstrom, secretary of the State Fair association, will sing a solo and the M. & M. Glee club will contribute to the entertainment.

On returning from the experimental farm the Salt Lake boosters will spend several hours in getting acquainted with the residents of Nephi and at 5 o'clock in the evening will start homeward.

STEEPLE JACK CLIMBS FLAG POLE ON TOP OF THE HERALD BUILDING

Steeple Jack in action, from a distance and at close range.

Charles F. Clark has no low and sordid motives. All of his aims are high in life. He has no ambition to be the fall guy for any play.

Charles F. Clark is a steeple jack and a good one. He is not very much afraid of that. Each year this steeple jack, according to the testimony which he himself bears, climbs the pole on the Herald building in New York and puts girth and stuff on the time ball. Some of his trips up the ladder of a flagpole are so long that he is obliged to have a portmanteau containing lunches, dinners, suppers and comforters sent up after him.

Steeple Jack Clark says he is 63 years old. He looks the part. He also says he has never had a serious fall, except off the ladder. His appearance substantiates that, too.

JAMES W. LOVE AVAILABLE

Friends of Former Captain Pushing His Claims for Chief of Police.

The availability of James W. Love for the position of chief of the fire department was pointed out yesterday by many of his friends, both within and without the fire department. Mr. Love was a long time in the fire department for twelve years prior to the time he left the department eighteen months ago. At the time he resigned from the department he was senior captain. Since leaving the fire department he has been night yardmaster for the Oregon Short Line railroad.

Captain Love is a brother of Stephen H. Love, president of the state senate. Although his parents were members of the Mormon church and his brother is an active Republican politician, Captain Love is said to be a member of the "American" party and therefore eligible on political grounds as well as on the grounds of competency to take charge of the department.

REVISE PRIZE LIST FOR ELSTEDFOD

Winning Chorus Will Be Awarded \$1,000 and Leader Will Get \$600 Piano.

Changes in the prizes to be offered at the Elstedfod at the tabernacle on Oct. 1, 2 and 3, which will be of interest to Salt Lake singers and musicians, were made at the meeting last night of the Cambrian association.

It was decided to make the first prize, for choruses, \$1,000. The prize will be awarded even though no choruses come from other states and the competition is confined to Utah singers. A \$600 Kimball grand piano, the contribution to the song festival of the Clayton-Duane Music company, will be given to the leader of the chorus which wins the first prize.

The prize for the best male chorus of not less than thirty-five voices and not more than forty was increased to \$300 from \$100.

The prize for the best military band was increased from \$200 to \$300, and the number of musicians required in each competing band was reduced. It will now be from twenty-five to thirty-five, instead of from thirty-five to fifty. A gold medal will be given to the leader of the band winning this prize.

The prize for the best band of minors was increased from \$100 to \$150, and the second prize was increased from \$50 to \$75. A silver medal will be given to the leader of the band that wins first prize in this contest. The bands must have from eighteen to twenty-five members.

It was decided to have an outing at Saltair of the Cambrian society on July 16, at which there will be a musical festival of the interesting features of the Elstedfod. T. F. Thomas, John James and Captain D. L. Davis were chosen as a committee to arrange for the outing.

WORK IS PROGRESSING ON APARTMENT HOUSES

Many Additional Flats Will Be at Disposal of Renters This Summer and Fall.

Some of the new apartment houses now under construction will soon be ready for use.

The \$35,000 building which Patrick Gibbons is putting up at 251 East Third South street, will be finished in about a month. It is three stories high and is built of red fire brick.

Nathaniel M. Hamilton's apartment house in Brigham street, east of the University club, is also almost completed. Considerable work has been done upon Dr. Fred Stauffer's apartment house in Brigham street, east of State street. The building will cost \$45,000. The plans were drawn by Architect George W. Eldredge.

The basement, which is almost finished, is of Park City red sandstone. The three upper floors will be of white limestone and white pressed brick. It is expected that the apartment house will be completed by Oct. 1.

The building has a Brigham street frontage of sixty-five feet and extends back eighty-two feet. It will contain three nine-room apartments, three eight-room apartments and one five-room apartment. Arrangements are being made for the erection of a number of small apartment houses arranged for the accommodation of two and three families.

Work has commenced upon Miss Evans' apartment building at H street and Sixth avenue. It will be a two-story structure and will cost about \$5,000. It will contain four apartments. The building will have an ornamental stucco front.

The handsome Woodruff apartment house of the Mutual Realty company will reach completion early in the fall. It is the most costly of the apartment houses now under construction and one of the most beautiful.

AFTER THE OLD SOLDIERS

Commercial Club Has Not Relaxed Efforts to Secure G. A. R. Encampment.

Thomas Loughney has written to The Herald to inquire concerning what is being done to secure the national Grand Army encampment of 1909 for Salt Lake. Mr. Loughney is under the impression that time is now being wasted and that because of this the prize may slip through the hands of those who have been selected to make efforts to bring the national encampment here.

Secretary Fisher Harris of the Commercial club stated last night that the work of boosting for Salt Lake during the encampment at Toledo, O., which begins Aug. 31, is in capable hands and that there is no reason to complain of tardiness or neglect. He said that the Commercial club is working with the old soldiers of Utah toward bringing the next national encampment to Salt Lake.

THE FOLLOWING program will be given at the organ recital in the tabernacle today at noon:

Excerpt from "Madam Butterfly".....Puccini

(a) Offertory in D flat.....Kimball

(b) Vergangen Tage.....Grieg

(c) Old melody.....Karl

Priests' march from "Athalie".....Mendelssohn
